

MARIE O'SHAUGHNESSY

Front End Developer

marie.oshaughnessy.dev | 647-764-0250 | m.oshaughnessy@outlook.com

Who am I?

Front end developer with industry experience working with React (Chakra UI), WordPress and Figma. My background in Fashion, Art, and Design, has taught me to hone my artistic talent to create targeted and consistent designs. I am looking to combine my artistic and technical abilities in a collaborative and challenging role.

Skills

- React.js (Class-based, Hooks, and Chakra UI)
- Modern Web Development (HTML5/6, CSS3, and Sass)
- JavaScript (including ES6, jQuery)
- Data Manipulation (Firebase and REST API)
- Responsive web design
- Adobe Suite (Illustrator, Photoshop, and InDesign)
- Web accessibility
- UI Design
- Figma
- WordPress
- Master Googler
- Continuous learner
- Collaborator

Education

Juno College of Technology
Fall 2019 - Spring 2020

- Web Development Immersive Bootcamp
- Accelerated JavaScript
- Web Development Part-Time

Fanshawe College
Fall 2012 - Summer 2014

- Fashion Merchandising Certificate

Relevant Work Experience

Front End Developer

NL Eats | Winter 2020 - Present

- Worked with remote teams to develop several web sites and a web application
- Brought the NL Eats site design from concept to reality, focusing on accessibility and branding using WordPress
- Designed the UI for company project(FOMTree) using Chakra UI and React.js
- Worked on developing brand identity of the company e-commerce site Tidal Deal by designing the logo and color pallet

Intern

CertClean | Spring 2017

- Updated and maintained website content for the 2017 Clean Beauty Awards
- Maintained communications with brands and influencers, keeping a line of communication open for promotions and updates
- Proposed and launched several customer outreach programs resulting in an increased brand awareness
- Managed brand image across all social media platforms

Projects

FOMTree

React.js | Chakra UI | JSX | HTML | CSS | Figma

Designed on Figma and created with Chakra UI, FOMTree is an all-in-one system for coordinating the operation of a food bank. The web application allows foodbank clients to request food and provides a system for volunteers to organize all donations, food requests and all documentation and statistics. The main priority in the design of this application was accessibility, responsiveness and ease of use.

Tarot Universe

React.js | JSX | HTML | CSS

Tarot Universe is a fortune-telling app that pulls data from a tarot database. The tarot layout used is for reflecting on the past, present and future. This application invokes an immersive head-space through user interaction and CSS animation.

Post It!

React.js | JSX | Firebase | HTML | CSS

"Post It" is a Post-it themed React.js app for writing and saving notes. The user can pick the colour, text size of the note while displaying the character count. While demonstrating data manipulation, Post It focuses on being simple, bright and fun.
